

GREG BRANN - BIG SPRING FARM

Regenerative Farm Pasture Walk

October 20, 2022, 10 am till 3 pm CDT

683 Blankenship Rd, Adolphus, KY 42120

RSVP: gregbrann5@gmail.com

Cost: \$40.00 (pay on-site at lunchtime) includes Pasture Walk and Lunch (farm raised Pork and Beef). River Cottage Farm Catering

An interactive discussion, in the fields, to assist farmers in managing soil, plant, animal, and water resources.

Big Spring Farm Mission Statement: Working with nature for a healthy, low-stress, low-cost grazing operation that improves the environment, production, and life, while being consistently profitable. Training, inspiring, and enabling others to improve land management.

Our Management Goals:

- Managing pastures for optimum quality and quantity
- Managing water with proper placement and access
- Managing livestock for easy keeping and higher profitability
- Managing soil carbon, moisture, and nutrients (no commercial fertilizer in 14 years)

Discussion Topics: Led by Greg Brann and Dr. Chris Teutsch

- Grass, clover, and forb mixes and management
- Corrals; location and layout
- Addressing water points
- Multi paddock and multi-species grazing (cow-calf to finish, hair sheep to finish, goats for weed management, farrow to finish hogs, and wool sheep for fiber and meat)
- Weed management: high-density grazing, goats, and clipping
- Regenerative management
- Sacrifice paddock management
- Fly control
- Hay harvest and feeding; Bale grazing demonstration
- Variable stocking for proper grazing management
