Hello Christine, ✨

Response to SOMERSET FOI SARS-CoV-2 & ZIKA request--i have gone back again citing the original request and that they comply with all requests and on livery'd stationery..

Attached my original requests for reference.

[REDACTED]

19 October 2021

Director Public Health
South West Somerset – Trudi Grant

trudi.grant@richmond.gov.uk

This is my wish for access to records.

Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Dear Requester

Freedom of Information Act 2000

Thank you for your request for information. We have processed your request under the provisions of the Freedom of Information Act 2000.

You asked:

Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any 'COVID-19 virus' (aka 'SARS-COV-2', including any alleged 'variants' i.e.

'B.1.1.7', 'B.1.351', 'P.1') directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19. Please note that I am not requesting studies/reports where researchers failed to purify the suspected 'virus' (separate the alleged 'virus' from everything else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or*
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- produced electron microscopy images of unpurified things in a cell culture.*

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a 'virus' requires host cells in order to replicate, and I am not requesting records describing the replication of a 'virus' without host cells. Further, I am not requesting private patient information, or records

that describe a suspected 'virus' floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere. This includes your own website which claims to have the virus isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence. If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Our Response:

The information you requested is not held by Somerset County Council.

Please quote the reference number 8589749 in any future communications.

I will now close this request. If you are not satisfied with our response you may request an internal review. This is an independent investigation into the handling of your request, which is carried out by the Information Governance Team. The conclusions of this investigation, and if applicable, a fresh decision about the information to be provided, should be sent to you within twenty working days of receipt of the internal review request.

To request an Internal Review please respond to this letter detailing why you are not satisfied, and your request will be dealt with by the information governance team.

If you are not satisfied with the results of the internal review, you may then appeal directly to the Information Commissioner's Office with your complaint. The Information commissioner can be contacted at <https://ico.org.uk/make-a-complaint/>

I will now close your request as of this date.

Yours faithfully

Freedom of Information Team
