

LONDON BOROUGH OF BROMLEY

FREEDOM OF INFORMATION ENQUIRY - RESPONSE

Date: 14 December 2021
Request ID: **S29JF44R94**
Subject: **Virus Information/Infectious Disease**

Request Type: **Freedom of Information Request**
Subject Type: FOI/EIR
Which department do you require information from? Adult Services FOI/SAR and Housing FOI

Please see below responses to your enquiry (highlighted in **Green**)

Response: We can confirm that **London Borough of Bromley (LBB)** does not hold the information requested in your FOI enquiry.

NB: For future reference, please be aware that LBB does not hold any data pertaining to the purification/causation of sickness in living man regarding any viruses known to man.

Request: Please address my request in full * and respond in kind on letter head notepaper with a reference number, referencing the information requests made-a separate response letter for each request made that is dated and signed by whomever is responsible for the decision contained within the response letter 'claims of 'virus' isolation/sickness causation' for the sake of clarity and transparency to the publick. I do not wish to create accounts and passwords and all manner of other property to prolong the delivery of evidences/publick records and further attempts to obtain my property will be posted in the publick domain.

I have included link to Public Health England's response letter by way of example as to how it is usual to respond and lay out the response also a response link from Derby to purification of the polio virus. Should you require a copy of PHE's response or further help on how to respond to requests please let me know soonest.

As evidences/publick record these communications will be placed in the public domain rendering them live. For further clarity as i have submitted more than 1 request to the Director of Public Health for Bromley – Nada Lemic, including SARS-CoV-1 'virus' purification/causation of sickness in living man, for HPV, INFLUENZA 'virus' and so forth in the last few weeks would they please indicate what request is referred to.

19 October 2021

Director Public Health
London Bromley – Nada Lemic

Nada.Lemic@bromley.gov.uk

This is my wish for access to records.

Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any **“COVID-19 virus”** (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first combined with any other source of genetic material** (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.**

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

21 October 2021

Director Public Health
London Bromley – Nada Lemic

Nada.Lemic@bromley.gov.uk

This is my wish for access to records.

Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of **"Zika virus"** directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and **proving a causation** between the **"virus"** and the suspected infectious disease.

Please note that I am using “purification” in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to **purify** the suspected **"virus"** (separate the alleged “virus” from everything thing else in the patient sample) and instead:-

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description,
